

# PTFE TITRE PLATES

THE KEY TO PROGRESS IN  
TITRE PLATE TECHNOLOGY

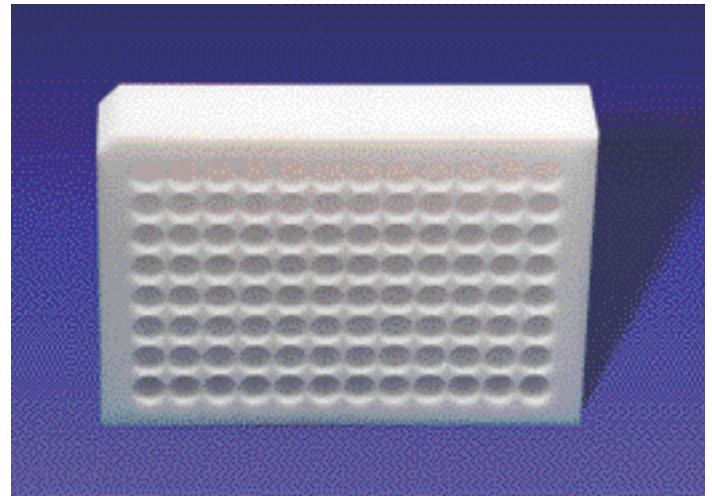

- **MOLECULAR BIOLOGY**
- **COMBINATORIAL CHEMISTRY**
- **CELL HARVESTING**
- **ARCHIVING**

**OPTIONS INCLUDE -**

- Deep, square and variable geometry wells
- Filter wells
- Wells with individual valves
- Lids and sealing system
- Stackable system

*Mastco .....*

*Achieving the unimaginable in  
custom PTFE solutions.*

**STANDARD PLATES - 96 WELLS**

Manufactured with round or square bottomed distortion free cavities.

Custom quotes gladly provided.

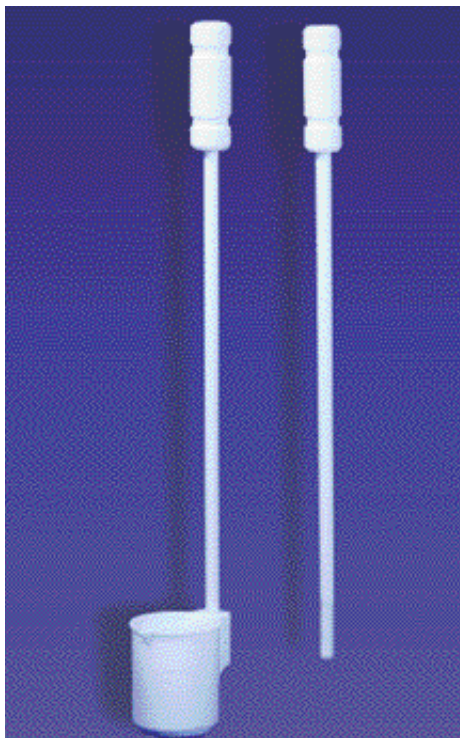

**ROUND WELL**

Ref No.	Well Ø	L	W	Depth
MTP9614RND	6.4	127	85	14

**SQUARE WELL**

Ref No.	Well Ø	L	W	Depth
MTP9614SQU	6.4	127	85	14

## LADLES AND DIPPERS

Extendible screw-in shafts have a rigid steel core and are fully encapsulated in PTFE. The basic unit consists of a container with a single 600mm (24") shaft. Screw-in shaft lengths, 600mm (24") are available separately.

Ref No.	ml	fl. oz.	Body Ø
LAD0354DIP	100	3	54
LAD0866DIP	250	8	66
LAD1780DIP	500	17	80
LAD3410DIP	1000	34	100

**SHAFT ONLY**

Ref No.	L
LAD0600SLD	600 (24")

10ml capacity sampler-ladle.  
SAMPLER LADLE

Ref No.	ml cap.
